

*boulder county*  
**Force**

The Boulder County Force soccer club and Boulder based **mix 1** team up to help provide youth soccer players with great tasting all-natural nutritional shakes. **Mix 1** is excellent before games and practices, at half-time and as a recovery drink.

**Each competitive U11-U18 BCF team will receive two complimentary cases of mix 1 available for pick up at the BCF office by the coach or manager. BCF players, coaches and parents now receive exclusive BCF pricing on cases of mix 1 when ordered directly through the club. BCF pricing is \$15.00 a case with 12 bottles per case (a \$30.00 retail value).**

As part of the new partnership, Dr. James, co-founder of **mix 1**, will be presenting to BCF members important messages about proper nutrition for athletes. **Mix 1** will also be supporting the BCF's Rocky Mountain Cup & College Showcase tournament in June.

"Nutrition is an often over looked but critical aspect of being a high performing athlete. **Mix 1** shakes are a healthy all-natural fuel for soccer players. Many of our players and coaches already include the **mix 1** protein shakes as as part of their workout plan. We are excited to create a partnership with a brand that is enthusiastic about supporting youth soccer in their own community."

- Hardy Kalisher, BCF Director of Operations,.

"It seems our days have become increasingly packed with events as we juggle family, work, and fitness leaving less time to focus on eating right throughout the day. There are many nutritional products claiming to deliver amazing benefits but in reality fall short on balanced nutrition. With this in mind, we started **mix1** with the following mission: to create the highest quality all-natural products that promote health, wellness and performance through truly functional nutrition. mix1 products deliver all-natural balanced nutrition with multiple benefits in a convenient way. We use the right balance of ingredients, at efficacious levels, to provide the maximum benefit to your body." - Dr. James, ND, co-founder
